

HOW WORDS WORK™
a four-part series*

An interactive experience guaranteed to make you rethink everything you've ever learned about language.

ASK BETTER QUESTIONS

Learn how to ask powerful questions that automatically unlock the spaces where clients notoriously get stuck.

HEALTHCARE PRACTITIONERS

Navigate your client's healing, leading to profound, sustainable change.

COMPLEX TRAUMA

Learn about the undeniable connection between language, complex trauma and its myriad of symptoms.

MENTAL HEALTH

Understand the origins of anxiety, depression, ADD/ADHD, addictions and most behavioral challenges.

CREATE DEEPER CLARITY

Avoid misdiagnoses & over-prescribing by helping patient identify, process and release underlying root cause(s).

Behavioral Health Practitioners: Come learn the direct messages and subtle clues that are often hidden inside our words. Learn how to naturally decode language, how to invite self-discovery, how to deliver an impactful message and evoke deep awareness. Learn how to ask exactly the right question that reveals never before experienced content.

Change your questions → change your client's life.

LEARNING OBJECTIVES

- + Learn the structure of language to help clients sustainably shift their perspective.
- + Learn how to identify and interrupt the patterns that keep your clients stuck.
- + Understand how behaviors are made & how emotions are generated.
- + Become fluent deciphering the meaning behind words and their buried connection.

After this, you will be able to

- Identify the unspoken parts of communication,
- Breakthrough even the toughest mindsets, and
- Influence like never before.

How we do it?

Coaching

Speaking

Training

Unconventional Approaches to Mental Health & Wellness | Practitioner Development
Biopsychosocial Approach | Communication Strategies | One on One Coaching

Our Philosophy: You're the expert in your field.

WHAT you are trained in and what you are doing is your expertise, yet
HOW people learn it and how they experience you - is our expertise.

We work with Behavioral Health Practitioners

Psychologists, School Psychologists, Psychotherapists, Therapists, Counselors, Social Workers

All of our programs are bespoke and built to suit.
