

ASK BETTER QUESTIONS

Learn how to ask powerful questions that automatically unlock the spaces where students notoriously get stuck.

EDUCATORS & PROFESSIONALS

Amplify your student's learning by shifting your language, creating a profound, sustainable change.

UNDERSTAND TRAUMA

Learn about the undeniable connection between language, complex trauma and its myriad of symptoms.

MENTAL HEALTH

Understand the origins of anxiety, depression, ADD/ADHD, addictions and most behavioral challenges.

CREATE DEEPER CLARITY

Avoid misdiagnoses & setbacks by helping kids identify, process and release underlying root cause(s) early.

Educators & School Professionals: Come learn the direct messages and subtle clues that are often hidden inside our words...and how kids embody them. Learn how to naturally decode language, how to invite self-discovery, how to deliver an impactful message and evoke deep awareness. Learn how to ask exactly the right question that helps kids uncover never before experienced content.

Change your questions → change a kid's life.

LEARNING OBJECTIVES

- + Learn the structure of language to help kids sustainably shift their perspective.
- + Learn how to identify and interrupt patterns that keep your students & players stuck.
- + Understand how behaviors are made & how emotions are generated.
- + Become fluent deciphering the meaning behind words and their buried connection.

After this, you will be able to

- Identify the unspoken parts of communication,
- Breakthrough even the toughest mindsets, and
- Influence like never before.

How we can help?

Coaching

Speaking

Training

Unconventional Approaches to Mental Health & Wellness | Practitioner Development
Biopsychosocial Approach | Communication Strategies | One on One Coaching

Our Philosophy: You're the expert in your field.

WHAT you are teaching and your knowledge in that field is your expertise, yet
HOW people learn it and how they experience you - is our expertise.

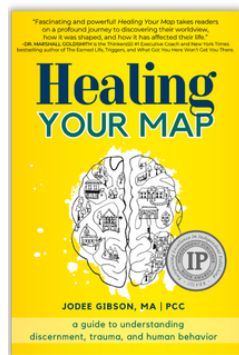

We work with Educators & School Professionals.

All of our programs are bespoke and built to suit.
